

Rising to the Challenge

We the People are being called upon to continue the American Revolution begun by our nation's founders. They understood that manifesting *Novus Ordo Seclorum*, a new order of the ages, would be a multigenerational undertaking. Choosing an unfinished pyramid to symbolize America, they counted on us to build upon the foundation they began in 1776.

Creating a more perfect union is an ongoing endeavor that requires the passion and vigilance of an informed citizenry. This begins by educating our children about the essential founding principles embodied in the emblem of their nation, the Great Seal of the United States.

IMAGINE

Imagine yourself soaring high above the pyramid. Imagine seeing from a higher perspective, one that encompasses America's original vision of Peace and Unity.

Peace is a Predominate Founding Principle

George Washington, Thomas Jefferson, and America's founders knew that peace is essential to the enjoyment of life, liberty and the pursuit of happiness.

They entrusted "the power of peace and war" to us and our elected representatives - symbolized by the eagle and the shield - and directed our gaze toward the olive branch held in the stronger talon.

We have greatly developed our capacity to make war. It is now time to realign with our core founding principle and focus America's genius on the power of peace to create a more productive, prosperous, safe, just, and joyous universe for us all.
